

International Supply Management Congress 2016 - November 22nd - Rotterdam - The Netherlands

The 6th International Supply Management Congress (ISMC) of Tuesday November 22nd is the first of a series of 5 annual congresses with a mission: "Supply Management 2020: Making the shift happen!". A comprehensive and renowned international knowledge and networking event connecting the worlds of procurement, supply management, R&D & innovation, sustainability and suppliers engagement. After 5 highly rated editions with 800 to 1000 participants, the 6th edition will expand with an inspiring Pre-Congress event on November 21st.

CONNECT & SHARE: FACING THE FUTURE TOGETHER...

This year's main theme will focus on connecting and sharing in four Fields of Interests such as Innovation & Technology, Human Capital, Responsibility and Supply & Finance. Real sharing of information, knowledge, sources and benefits. Still a bigger challenge than we like to admit. This challenge will be addressed from various angles in around 40 sessions of international keynotes, best practices, leading specialists, innovations, interactive workshops, start-ups and academic findings. From within leading industries, governments, academic & research institutions and NGO's.

PRE-CONGRESS EVENT...

New for the 6th edition is an exclusive pre-congress program on Monday November 21st. A limited number of international participants and guests of our sponsors and partners can choose to attend in-depth masterclasses by our keynotes and academics, insightful site trips to leading companies and projects, specific discussion panels and working groups, meeting platforms, social events and more.

DATE & PLACE

Congress date: November 22nd 2016
